

# NATIONAL MULTIETHNIC DONOR AWARENESS MONTH

## *Jaxson Love*

Jaxson is remembered as a happy and playful two-year old who love batman and dancing to Bruno Mars. Jaxson became a pediatric organ donor at the age of 2 in 2017. Jaxson was able to give the Gift of Life to two babies. One baby received Jaxson's heart and another received his liver. Jaxson's family and friends remember Jaxson with projects like Jaxson's Birthday Magic and Love, Jaxson Project, which both honor Jaxson's legacy and bring comfort and joy to children locally and afar.
