Happy Holidays

This season, we reflect on the power of purpose—Know Your Why. For donor heroes and their families, that ‘why’ is the gift of life. For transplant recipients, it’s the chance to live fully. For our hospital partners and community, it’s the commitment to hope and healing.

Thank you for living your ‘why’ and making miracles possible every day.

Wishing you peace, joy, and a new year filled with meaning and possibility.

Damita Barbee goes to Pasadena

Barbee Heads to the Tournament of Roses

This past December 18th, Donor Network West had the privilege of partnering with UCSF Health to celebrate Damita Barbee, an incredible Donate Life Ambassador for 9 years and a double-lung transplant recipient, and to send her off to the Rose Parade in Pasadena in style as a rider on the Donate Life Float.

Damita has been a Donate Life Ambassador with Donor Network West for nine years. As an Ambassador and recipient, she feels a responsibility to share her story to educate the community about organ and tissue donation and to support others facing a diagnosis like hers. Receiving a double-lung transplant has allowed Damita to live her best life in the 11 years it has given her. Damita has traveled to many beautiful places and has spent precious time with her daughters and beloved Mother. Damita remains forever grateful to her Donor and their family for giving her a second chance of life.

If you would like to learn more about Damita's incredible journey to the Rose Parade, along with our other amazing float riders and honorees, please click here:

Rose Parade Sendoffs

This December, Donor Network West has traveled throughout our communities across Northern California and Northern Nevada, alongside our hospital partners, to celebrate and send off our Donate Life Float Riders and Honorees. Our transplant recipients and donor families had amazing moments of reminding our local communities of how vital this celebration of life is, how impactful and amazing their donor heroes were, and the need for organ, eye, and tissue donation.

All-Staff Meeting and Holiday Party

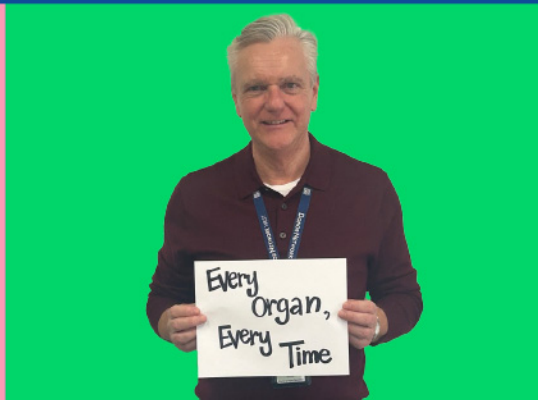

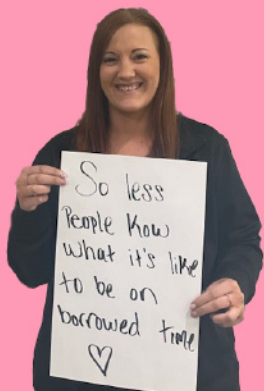

At our All-Staff meeting this December 10th, we had the privilege to have Melanie Curtis give an amazing Keynote, refreshing us for the final push of the year, and the start the new year stronger than ever.

Melanie Curtis is a former investment banker turned stunt-woman world-record pro skydiver, turned keynote speaker, life coach, author, activist and entrepreneur. She has jumped out of an airplane over 12,000 times, competed at the highest levels, and has traveled the globe as a headlining professional athlete coaching thousands of people over the last 30 years.

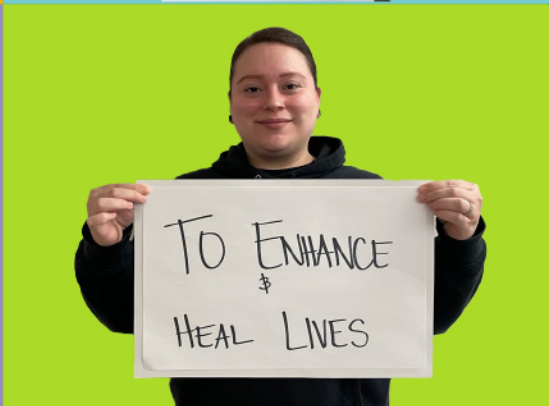

Our President and CEO, Dr. Janice F. Whaley, sat down with our Manager of Leadership and Organizational Development, Acey Blanco, for our annual December Town Hall. Dr. Whaley answered questions from our in-person and virtual staff about the present and future of Donor Network West, the incredible work we've accomplished so far, and some fun tidbits about her own life accomplishments!

SJSU Football Partnership

On November 29th, Donor Network West had the privilege of joining the San Jose State Football Spartans to honor one of our incredible kidney and bone transplant recipients and Donate Life Ambassadors, Sonya Wilson, who was accompanied by our Executive Director of the Donor Network West Foundation and 3x Super Bowl Champion, William Bubba Paris, and Director of Donor Operations, Dustin Smith.

Sonya's story was an incredible inspiration to an amazing San Jose community, and an excellent reminder of how far the gift of life can go. Bubba Paris had an opportunity to speak the #GiftOfLife with a community he's lived in for over 10 years, and Dustin rang the #VictoryBell for San Jose State to support our Spartans!

Antioch Women To Be Honored In Rose Parade

KRON-TV (San Francisco, CA)

Antioch woman Damita Barbee will be in Pasadena for this year's Rose Parade. She is a double lung transplant recipient, and she's among a group of people chosen to ride on the OneLegacy Donate Life float. Back in 2010, she was diagnosed with the disease that affects the lungs, and four years later, just days before her birthday, she learned a match had been found. Damita serves as a volunteer with Donor Network West, helping educate people about the importance of organ, eye, and tissue donation.
