TAKE NOTE.
2013 REPORT TO THE COMMUNITY
WHAT DOES organ and tissue donation mean to you?

For those who are waiting for a transplant it can be summed up in one word – hope.

The hope for another tomorrow thanks to the heroes who register as donors. The hope for mobility and sight restored because of the generosity of those who give. The hope for another chance thanks to family members and those who choose to pass on the gift of life to another.

This is why we will continue to build partnerships in donation – because we know for so many people, hope is all they have.

OUR MISSION STATEMENT

The California Transplant Donor Network saves and improves lives through organ and tissue donation for transplantation.

On the cover:

JOHN NGUYEN
Advanced Practice Coordinator
In his role as an advanced practice coordinator, John works closely with hospital and other CTDN staff to maximize the potential for donation and ensures that organ and tissue donors are treated with dignity and respect befitting heroes.

122,582 PEOPLE ON THE NATIONAL WAITLIST

10,764 PEOPLE ON THE WAITLIST IN OUR SERVICE AREA

8.2% OF THE NATION IS IN OUR SERVICE AREA

CALIFORNIA TRANSPLANT DONOR NETWORK | 2013 REPORT TO THE COMMUNITY
Connie’s son George made a decision when he got his first driver license that would have a profound impact on the life of Alfonso, who was a high school student when his liver suddenly failed. He was admitted to the hospital and told that without a transplant he had about 48 hours of life left. At the same time that Alfonso lay dying with his family at his bedside, George succumbed to an acute infection and was declared brain dead. Because Connie’s son had registered as a donor, his liver gave Alfonso the gift of life, allowing him to finish high school and pursue a college career. Today, both families share in the sorrow and the joy that brought them together as they frequently honor the memory of the young hero whose memory burns brightly.

Salvador treasures his role as a family resource coordinator because it allows him the opportunity to offer donation as a positive alternative to families facing unimaginable sadness. And, as their gifts of life became the answers to other’s prayers of hope, they find comfort in knowing that good has been rescued from tragedy. He helps families understand their loved ones will be remembered as heroes.
DANNY CRONIN
Tissue Donation Coordinator

Each day when he comes to work in the tissue Operations Center, Danny reaches out to families by phone to explain how their loved ones can save and improve lives through tissue donation. Danny says that though he never meets the families he talks with face to face, he knows the conversations he has often mean that lives will be changed – whether it is through an anterior cruciate ligament transplant that allows someone to regain their mobility and live pain-free, or a burn victim who is able to heal as the result of a skin graft.

BO KEOBABPHA
Team Leader/Tissue Recovery Technician

Bo lives and works in the Fresno area, and is part of the surgical team dispatched to recover tissues from donors to help patients regain their mobility, heal from severe burns, and to be able to see again, thanks to the gift of donated tissue. As a Team Leader, Bo makes sure that cases flow smoothly and is in charge of training new employees in the field.
CAMELLIA FRANKLIN & ISABEL MARTIN
Tissue Recipient & Heart Recipient

Camellia has always been athletic and passionate about ice skating. One day, when walking down a flight of stairs, her right knee suddenly gave out, requiring surgery. She received a donated anterior cruciate ligament that restored the normal range of motion in her knee and the freedom to do everything she did before her injury. She is deeply grateful for her donor’s gift that restored her health and quality of life. Camellia is also a donor sister – her brother, Clifford Johnson Hudson, was an organ and tissue donor in 2005.

Soon after Isabel was born, her doctors discovered that something was wrong with her tiny heart. She was diagnosed with dilated cardiomyopathy and her only hope was to receive a heart transplant. At only 10 weeks of age she was placed on the transplant waiting list and her family held hope she would receive the gift of life in time. Isabel had her heart transplant at Lucile Packard Children’s Hospital in January, 2006. Now a vibrant 8 year old, Isabel loves doing gymnastics, tap dancing, playing piano and swimming – and going to the hospital for her annual checkups!

JOY LOVE WILLIAMS
Waiting for a Double Lung Transplant

Joy always chose the stairs over the elevator and led a very active life. She was also a wedding singer until she started to feel winded and weak. She went from being healthy to catching frequent colds and fighting pneumonia, and was finally diagnosed at UC San Francisco with a devastating disease that scarred her lungs. Joy was placed on the transplant waiting list on February 2014, and does her best to stay as healthy as possible as she waits and hopes for a double lung transplant that will restore her health – and allow her to sing again.
2013 BOARD OF DIRECTORS

Cynthia D. Siljestrom  
Chief Executive Officer  
California Technical Donor Network  
Ex-Officio, Executive Committee,  
California Transplant Donor Network

Marivic J. Hammond  
Senior Investment Advisor  
Bell Investment Advisors  
Finance Committee

Hamilla Kowani, RN, MHA  
VP of Operations & Special Services  
Chief Administrative Officer, Pacific Campus  
California Pacific Medical Center  
Executive Committee, Finance Committee

Lloyd LaCuesta  
Journalist, Retired  
Adjunct Professor at San Jose State University

Kathleen F. Lyaugh  
BS/RN, MBA, JD  
Associate General Counsel  
Blue Shield of California, SF  
Executive Committee, Compensation Committee Chair

John Rabinik, M.D., FACS  
California Pacific Medical Center  
Department of Transplantation

John Roberts, M.D.  
Chief of Transplant Service  
University of California San Francisco Medical Center

Jill Sullivan, RN, MSN  
VP: Hospital Transformation, Heart & Transplant Service Lines  
Lucille Packard Children’s Hospital at Stanford  
Executive Committee, Compensation Committee

Catherine Lan Tran, MBA  
Chief Financial Officer, Retired  
Audit Committee, Compensation Committee

Dolly B. Tyau, PhD, D(ABHI)  
Director, Microbiology & Immunogenetics  
Immunogenetics & Disease Profiling Lab  
Stanford University School of Medicine

Michelle Zyromski, Esq.  
Zyromski Konicek LLP

2013 SENIOR LEADERSHIP TEAM

Nancy Lee, RN, MSN (Chairperson)  
Chief Nursing Officer & VP of Operations  
Stanford Hospital & Clinics  
Executive Committee Chair

Reece Fawley (Secretary/Treasurer)  
Executive Director  
Health Plan Strategy & Transplantation,  
Chief Contracting Officer, UCSF Medical Center  
& Benioff Children’s Hospital Executive Committee,  
Finance Committee Chair

Claire Fisher  
Chief Financial Officer  
California Pacific Medical Center

### CTDN AND AREA HOSPITALS PARTNER TO SAVE LIVES THROUGH DONATION

**Referral:** The number of times a hospital contacted CTDN due to a patient with a non-survivable illness or an injury.

**Eligible Referrals:** The number of referrals in which the patient met established criteria for donation including a declaration of brain death by two physicians in CA or one physician in NV.

**Organ Donors:** The number of donors from whom a transplantable organ was recovered.

**Organs Transplanted:** How many organs were transplanted; reflects that several organs can come from a single donor.

For 2013, 2,007 people said “yes” to tissue donation resulting in more than 83,000 lives improved. In addition to the generous and giving families who donated to help others in need, our partner hospitals, coroners and funeral homes helped facilitate the recovery of life-improving tissues.
